PROFESSIONAL SUMMARY

Computer Science graduate (First Class with Distinction, CGPA 8.39/10) with hands-on internship experience in REST API development and relational and NoSQL database work (MySQL, MongoDB). Currently deepening Core and Advanced Java through full-stack training, and built HireFlow, a layered Spring Boot application using Spring Data JPA and MySQL. Familiar with AWS (EC2, S3), Git, and API testing with Postman. Delivered projects involving third-party API integration and workflow automation. Seeking a Java backend role at Cognizant to build scalable, secure, and maintainable solutions in collaboration with cross-functional teams.

TECHNICAL SKILLS

Languages: Java (Core; Advanced in progress), SQL, JavaScript

Java Concepts: OOP, Collections, Exception Handling, Multithreading fundamentals

Frameworks & APIs: Spring Boot, Spring Data JPA, REST API design and integration

Databases: MySQL, MongoDB

Cloud & Tools: AWS (EC2, S3), Git, GitHub, Postman

Practices: Debugging and problem-solving, API testing, SDLC

WORK EXPERIENCE

Backend Intern — ASKAN Technologies, Pondicherry *Nov 2024 – Dec 2024*

- Designed and developed REST API endpoints in Node.js, exposing backend business logic to client applications.
- Contributed to database design and wrote SQL queries on MySQL and MongoDB, helping maintain data integrity across environments.

Data Science Intern — TripleTechSoft, Chennai *Jan 2025 – Feb 2025*

- Developed Python scripts to preprocess and clean real-world datasets and conducted exploratory data analysis (EDA).
- Built and evaluated machine learning models, translating data into actionable insights through structured problem-solving.

Flutter Developer Intern — Cherri Technology, Pondicherry *Aug 2023 – Sep 2023*

- Applied OOP design patterns to build modular, reusable application components in a fast-paced, iterative environment.

PROJECTS

HireFlow — Full-Stack Recruitment Platform

Java, Spring Boot, Spring Data JPA, MySQL, REST API, React

- Developed a full-stack recruitment platform using Java and Spring Boot with RESTful APIs.
- Implemented user registration and backend business logic using Spring Data JPA and MySQL.
- Designed a layered architecture with Controller, Service, Repository, Entity, and DTO components.
- Tested and validated APIs using Postman, focusing on clean and maintainable backend development.

Buildwise AI — AI-Powered Project Mentor *build-wise-ai-two.vercel.app*

React.js, Node.js, Claude AI API, GitHub API

- Developed a full-stack platform (React.js, Node.js) that generates tailored project ideas and step-by-step development roadmaps.
- Engineered backend logic for a feedback engine and integrated Claude AI and GitHub REST APIs end to end.
- Automated generation of technical documentation (README, project structure, contribution guidelines).

EDUCATION

Java Full Stack Development Training — QSpiders, Chennai *May 2026 – Present*

SQL completed; Core & Advanced Java in progress.

Bachelor of Computer Science — Theivanai Ammal College for Women, Chennai *2023 – 2026*

First Class with Distinction | CGPA: 8.39/10.0

CERTIFICATIONS

Cisco Networking Academy: Introduction to Cybersecurity; C++ Advanced; Data Science Essentials with Python; Data Analytics Essentials

Others: MongoDB University: MongoDB and the Document Model; Skill India / NIIT: Cyber Awareness; IBM SkillsBuild: AI Fundamentals; Google Cloud: Generative AI Studio
